

## LOCAL PERSONAL

## In Tucson.

Al St. Louis left yesterday for a visit of a week or two at Tucson, where he will look up old friends.

## Here For Visit

Miss Margaret Lannema arrived yesterday from Natchez, Miss., for a visit with Mr. and Mrs. S. B. Chase and family.

## New Arrival

A fine baby girl was born yesterday morning to Mr. and Mrs. Tubman, of Laundry Hill.

## On Vacation Trip

Mrs. Morris Dene left yesterday for a few weeks vacation tour, in the course of which she will visit the coast.

## Lowell Improvement.

Improvements at the Legal Tender school at Lowell, which have been installed by Bate & Tarrant at cost of \$3,000, are now practically completed.

## Returns

Miss Margaret Manning arrived in the city yesterday from Los Angeles to resume her position as character lady with the L. B. Jacobs company now playing at the Orpheum.

## To London

Mrs. Elizabeth Stallard has left for New York, from where, on August 16, she will sail on the Oceanic for London, her old home.

## From Outing

Mrs. O. S. French and children have returned to the city from the Flat ranch in San Pedro valley, where they enjoyed a several weeks' outing.

## Today's Temperature

The thermometer took a rise yesterday and registered 88 degrees as the high, with 69 as the low. There was no precipitation.

## Tombstone Travel

Travel to Tombstone has given Southwestern trains exceptionally heavy traffic the last several days. Occasion for the activity is in the opening of court terms.

## At Home Cards

At home cards have been received by friends in the city from Mr. and Mrs. J. V. Blumley, El Centro, Cal., where Mr. Blumley has an important railroad position. Mrs. Blumley was formerly Miss Ona Black, daughter of Mrs. Fannie Black of this city. She married Mr. Blumley at El Centro a month ago, since which the young couple have been on a wedding tour.

## BARRELS OF MONEY TO LOAN

The Safe Place - Main St.

## After Insurance

Jack McGregor left yesterday afternoon for a brief visit in Douglas on insurance business. There is one notable thing about this hustling life insurance man's trips—while they are always brief they seldom fail of results that are long. He gets the goods.

## Wattles Returns

Conductor Wattles, of the Osborne stb., will be at his old post probably today. He returned Tuesday evening to the city looking fine after a vacation spent on the coast. During his trip he visited Catalina Island and has a stock of fish stories that will keep passengers interested during his runs.

## Both Fined

Constable Parley McTee yesterday arrested Jesus Leon and Encolina Mendoza, charged with breaking into a house and immoral conduct. The home entered was that of Bruce Doredo, on Chihuahua hill, which has been closed for some time. Fines of \$15 each were imposed.

## Road Work

The recent rains have badly cut out the road up the canyon near the Thomas place and the street department started yesterday on repairs there and the installation of a 150-foot cement wall to protect the road. The wall will be 8 feet high.

## Reconstruct Cooling Tower

Reconstruction of the cooling tower which collapsed on Saturday near the Copper Queen power house, was completed yesterday and the plant put back in service last night. The rebuilding was carried out in a highly vigorous manner, about 80 men being put on the job. They hustled it through in record time. Small inconvenience was suffered by reason of the loss of use of the tanks during the reconstruction work.

## Making Ready

Eagles and Red Men committees are busy with arrangements for the joint session they will hold next Sunday evening at K. P. hall. Steps that have been taken assure that the occasion will be one of the best prepared for that has ever been attempted by fraternal organizations in the district. Nothing is to be left un-done to make the gathering a pleasurable one and likewise profitable from the standpoint of furthering fraternal interests.

## Good Road Work

Robert Hennessy and W. R. Hall were visitors in Douglas yesterday afternoon, making the trip by automobile. They found the road in very good condition, the portion damaged by heavy rains Sunday being again in fair form. Of the part of the road which has been rutted and damaged recently, they had much praise, as have all recent travelers over this road. Without exception they say the improvement work has been of high class and if continued will make a fine boulevard between the cities.

## Soccer Football.

Graham's Colts will hold a meeting in the Lewis House, Johnson Addition, on Sunday next, at 6 p. m., when officers will be elected for the coming season. The Colts made their debut in the Warren District league last season, finishing in third place, which was considered very creditable. It is the intention of the Colts to again join the league this season, when they expect to put a pennant winning team in the field. All Soccer enthusiasts are cordially invited to attend the Sunday evening meeting.

## Improving Hotel.

Extensive improvements on the Bisbee hotel in Brewery Gulch will be started this morning. The cost will be about \$2,000. The contract for the work was let yesterday by Pierre Felix Marotte, the owner, to Bate & Tarrant. It calls for improvements that will make the hotel and dining room modern. The present barber shop will be removed and the whole lower floor will have a glass front. One of the largest and most modern kitchens in the city will be installed. This will be cement lined throughout, even to the ceiling, and will be strictly sanitary. A large store room, also of cement will be built. All will be made thoroughly fire proof.

## A'rive From Douglas

Don Landis and wife arrived in the city yesterday from Douglas to make their home. Mr. Landis comes to take charge of the men's furnishing department of the Phelps Dodge store, succeeding Mr. Evans, who goes to the management of the company's store in New Mexico. Mr. Landis has been in the Douglas store for some years and is rated very high in capability at Douglas. His acquaintance is large in the country and his advancement to the position he takes in the store in this city is a matter of pleasure to a great many friends.

## Supervisors Protest.

W. A. Moer, chairman of the board of supervisors of Maricopa county and Lin B. Orme, member of the board have declared their opposition to fighting the raise in the assessments on property. The raise is approximately \$2,500,000, and they declare it is unjust in every particular. In case the board decides to fight the raise, it will be necessary, under the law, to adopt a state rate of 75 cents, which would cost the county more than the raise in the assessment, as the rate made by the commission is 49 1/2 cents. The right, according to the members, could be based on the technical point that the horizontal raises were not made in the limit of time prescribed by law. The raises were, in fact, made early Tuesday morning, instead of Monday. A meeting of the taxpayers' league is contemplated to consider the matter.

## Third Sweeper

The street supervisor's department now has three street sweepers at work, the third having been put on yesterday. In many cases, particularly in the business section, business men have their premises swept in the morning when the stores are opened and the litter is thrown on the street. To keep the streets in good condition after the night sweeping, Street Supervisor Wright requests that all litter be deposited in the proper receptacles and not thrown on the streets. Otherwise there will be prosecutions.

## Over Borderland

Mr. and Mrs. M. M. Crain, of El Paso, arrived in the city yesterday on their way to San Francisco, motoring over the Borderland route. They report the road in poor condition out of El Paso on account of heavy rains, but for the whole trip had no occasion to change their course. All along the strip from El Paso to Bisbee the sign posting of the road is going along well and has received many favorable comments from motorists, according to Mr. Crain.

## Joins the Boosters

R. D. Brown, one of the best candy salesmen in the west, is concluding a campaign in the city today for a western candy outfit, King's chocolates, a Fort Worth, Texas, product that is declared second to none. Brown says Bisbee is the best town he has seen since leaving headquarters and that he expects to be a Bisbee booster the balance of his life.

## On the Ranch

Dayton Graham Jr. returned yesterday from a couple weeks' vacation, spent in studying agriculture on his ranch in the San Pedro valley, where he expects to make an ideal farm home in the course of the next several years. In following this course, he says, he will have plenty of company, the valley gaining new residents and industry very rapidly.

STATE RATE IS  
49 1/2 ON \$100

Total Assessed Value of Arizona For Present Year Is \$375,385,162.66; Maricopa Co. Gets Boost in Land.

From \$140,328,191.08 in 1912 to \$375,385,162.66 in 1913 is the increase in the assessed valuation of taxable property in Arizona. The state tax rate is 49 1/2 cents on each \$100 valuation. This will raise \$2,000,597.30, which is the sum needed to carry on the state's business during the next year.

The state tax commission finished the work of equalizing the assessments after 12 o'clock Monday night and proceeded to fix the rate at 49 1/2 cents. Last year the rate was 50 cents.

The figures of all the county assessors, with one exception, were raised following are the equalized valuations for the fourteen counties: Apache, \$6,999,955.96; Cochise, \$87,952,757.24; Coconino, \$16,082,593.87; Gila, \$32,468,439.22; Graham, \$9,171,759.25; Greenlee, \$34,167,655.02; Maricopa, \$66,932,917.80; Mohave, \$14,076,322.61; Navajo, \$7,065,590.68; Pima, \$23,868,758.00; Pinal, \$19,307,255.72; Santa Cruz, \$7,442,764.82; Yavapai, \$39,564,248.58; Yuma, \$13,230,000.50; total, \$375,385,162.66. No exceptions are included in this list.

The tax commissioners raised the assessments on irrigated land in Maricopa county ten per cent all around, and the valuation placed on city lots were increased five per cent. There were also some slight increases in live stock valuations to bring the averages up to those of the rest of the state.

In addition to the rate as fixed by the board of equalization last night, there will be the county rates in every section of the state.

The last hours of the sessions of the board of equalization for 1913 were exceedingly busy ones. All last week was spent in hearing complaints on assessed valuations. All day yesterday it was the same story. Raises in valuation ever up beyond the mil-

Have a  
Clear Skin

IMPORTANT WORK  
IS ASSIGNED TO  
CAPTAIN GREENWAY

His Name Placed on Advisory Board of Panama Exposition Mining Department—Means Results.

Announcement was made yesterday of the acceptance by Captain John C. Greenway of appointment as a member of the Advisory Committee for the Department of Mines and Metallurgy of the Panama-Pacific International Exposition to be held in San Francisco in 1915.

The appointment of Captain Greenway came through suggestion to President Moore of the Exposition by Professor Van Buren, chief of the department of Mines and Metallurgy. The chief duty attendant upon the office will be encouragement of exhibits from the mining divisions of the country at the Panama Exposition.

The selection of Captain Greenway is coincident with the appointment of other members of the committee, which will advise the department of the state, to the end of provision from Arizona of an exhibit that will be worthy of the great resources in mineral.

In discussing the matter yesterday, Captain Greenway said that he realized the importance of the work ahead. He will endeavor to win the hearty cooperation of the mining interests of the state, to the end of provision from Arizona of an exhibit that will be worthy of the great resources in mineral.

The selection of Captain Greenway unquestionably puts one in active service in Arizona who enjoys the confidence of the mining interests in general and whose vigorous manner of handling whatever he undertakes gives abundant assurance that Arizona exhibits at the exposition will be worthy of the state's resources. It would have been difficult for the exposition management to have found one with wider acquaintance with Arizona's mineral wealth or better adapted to the work that is ahead.

Although the Panama Exposition is a year and a half distant the time is none too long for the preparatory work that is necessary. Arizona is without an exhibit appropriation and it will devolve upon the member of the Mines Exhibit Advisory committee to interest the various mining interests of the state to such extent that they will go down in their pockets to provide for the making of a creditable showing. The campaign for exhibits is to begin at once and to be pushed vigorously.

Plan were made as late as noon yesterday. After two days and three nights of almost continuous work the board of equalization adjourned. They will now take a rest.

The extraordinary expenditure fixed by the legislature this year over and above the regular expenses of the state were listed by the state tax commission as follows:

Purchase and experimental farm	30,000
Printing revised statutes	25,000
Two bridges over Colorado	50,000
Insane Asylum building	25,000
Erection of armories	10,000
Building girls' dormitories	7,000
Northern Arizona Normal	24,000
Building boys' dormitories	5,750
Northern Arizona Normal	16,087
Fair commission, improvements, and buildings	10,000
State school fund	500,000
Industrial Arts building	45,000
Tempe Normal	18,500
Girls dormitory, Tempe Normal	18,500
Fire-proof agricultural building, university	82,500
Improvement and equipment	10,000

Total \$458,837.

The increase in assessed value over last year amounts to two and two-thirds, and as the tax rate is less than half what it was last year it is easy to see that those whose assessments have been doubled will pay more taxes to the state this year than they did last year.

## In Cochise County Rate

In Cochise county it is now expected that the rate will be put at not more than \$1.00 for both state and county purposes which will be a reduction in this rate of 13 1/2 cents the saving all being on account of the low county rate. Those whose assessments have been doubled, and practically all have, will pay more to the state this year than last, but they will pay considerably less to the county and on both state and county will net a saving of about 25 cents on the one hundred dollars of his valuation.

THROWING HOOK  
INTO MARICOPA

When the state tax commission was not looking the county assessor in Maricopa county valued the lands for taxation at a figure entirely too low according to the belief of the members of the commission and about every body else in the state who do not happen to own any of that prime Maricopa county land. Hence there was a raise and a roar in Maricopa when the commission ordered that these land values be increased.

According to reports from Phoenix received yesterday Maricopa county was raised \$2,916,012.45, the cultivated land catching the brunt of the boost, \$1,981 acres of land in Maricopa county were increased ten per cent, making a raise of \$2,022,748. All the town-

BOOSTERS IN  
FROM YUMA

Tell of Rapid Gains in Lands and Irrigation Enterprises Which Are Fast Building Up Country.

Among arrivals in the city yesterday were W. R. Raymond, S. E. Eppler and O. P. Bondenson, all of Yuma and prominently identified the last several years with irrigation and land reclamation enterprises in the Yuma section.

The gentlemen are all associated with the Yuma Irrigated Land Co., Mr. Raymond as president, Mr. Eppler as secretary and Mr. Bondenson as a director. They came here particularly for the purpose of interesting John A. Campbell in their company and last night announced that Mr. Campbell would in future represent them in this district.

They will remain several days looking over the district and getting acquainted with its splendid resources. Mr. Bondenson will make a longer stay and will be here with Mr. Campbell for a matter of probably two weeks. Before taking his departure, Mr. Bondenson will deliver a series of lectures accompanied by views which promise to provide much that will entertain as well as instruct all who are interested in irrigation and land reclamation matters in the Southwest, and particularly in Arizona. These lectures will be free to the public. They will be delivered at Fair Hall.

Mr. Bondenson was formerly president of the Yuma County Water association, in which capacity he carried out a large amount of the advance work that has resulted in so much advancement for Yuma county land and irrigation enterprises in the last few years. He has since followed the subject carefully and studiously and is esteemed one of the best placed men in the country with reference to irrigation and reclamation work under conditions such as presented in Arizona. Those who hear him cannot but be both benefited and entertained.

The visitors state that Yuma is prosperous and that its prosperity is being steadily and rapidly advanced by reason of the enterprise that has come about on farm lands under irrigation enterprises. Opportunities are very great, looking to future value of these lands, while the immediate present is enabling good returns to those who are going in and taking up farming on the new lands, which are proving very fertile and equal to work in farm lands of the west. This year their alfalfa is averaging returns of from \$150 to \$200 the acre and growers are well pleased. From other crops there are like good returns being received, while the acreage that has been put to trees and that is constantly increasing gives large promise of producing fruit that will compare with the best grown in California, with the advantage that it will be marketable much earlier in each season, taking the top prices when the early fall and winter fruit commands.

and city lots in the county were raised 5 per cent, making the raise \$803,191.25. Work horses in the county were raised 20 per cent, making \$61,966.70. Jacks came in for a raise of 20 per cent, making \$463. The Boston Store's stock of merchandise was raised from \$25,000 to \$27,000, making a difference of \$18,000. Extra W. Thayer's stock of merchandise was raised from \$75,000 to \$80,000, a difference of \$5,000. M. Goldwater and Brother's stock of merchandise was raised from \$66,290 to \$70,000, a difference of \$3,710.

EAGLES WILL GO TO  
HOME IN BREWERY

The two big eagles recently captured in the Chiricahua and secured by the local Aerie of Eagles, will change their home in a day or two from a small cage in the window of a Main street store to a large cage in the yard of O. S. French, of the Bisbee Aerie.

It was arranged some time ago that the eagles were to be given a home at the city hall. At the rear of the building there is a wide space, walled in on all four sides that would have made an ideal cage for them with the placing of a wire screen over the top. City Clerk Butler, however, believed that the birds would cause considerable trouble, Mr. Butler worrying about his olfactory organs in particular. Not wishing to embarrass the eagles by making them unwelcome guests, Mr. French decided on building a large cage for them at his property.

The cage will be of wire with a protected section in case of bad weather. It will be of sufficient size to afford the birds plenty of space and they are expected to soon get into fine condition when removed from their present cramped quarters.

## Has Made Good

T. C. Haigler is installing several improvements at his shooting gallery in Main street. The gallery opened several weeks ago as a temporary enterprise for the Fourth of July season and has been so successful under Haigler's good management that he has now determined to make it a permanent enterprise.

The Y. M. C. A. baseball team, mindful of its defeat last Sunday, has been putting in hard practice this week at the Warren park. No games are definitely scheduled but a number of others have been received.

Constipation is the starting point for many serious diseases. To be healthy keep the bowels active and regular. HERBINE will remove all accumulations in the bowels and put the system in prime condition. Price 50c. Sold by Bisbee Drug Co.

CONDITION IS  
NOW CRITICAL

Josh Gloyn, Old Time Miner, Suffers Unbalanced Mind, Due to Exposure; Bro. Sick

Joshua Gloyn, aged about 45 years, lies at the Copper Queen hospital in a critical condition, his mind as well as his body affected by disease. He was taken to the hospital a few days ago to undergo observation as to his sanity.

It was decided that he should be taken to Tombstone yesterday and placed in jail. Deputy Sheriff Gannon was given the necessary papers, but when he went to get Gloyn at the hospital was told that the patient was so ill that the trip would probably prove fatal. Gloyn is suffering from a complication of troubles, believed to be due, in part, to exposure.

For twelve years the supposedly insane man has been a resident of Bisbee. He has been employed in the mines on and off but recently he has appeared irrational and has not been working. Much of the time he has spent at his cabin on School Hill, but appeared in the town district Tuesday, where his queer actions led to his confinement for observation.

At the hospital last night it was stated that he showed some improvement during the day but that he is still too weak to be moved. He has a brother living here, employed by the C. & A. but who is at present ill at the C. & A. hospital.

In Bisbee D. B. Hutchins, who was recently appointed County Superintendent of Schools, arrived in Bisbee last night on official business and will remain here today. When seen Mr. Hutchins said that no change of policy would be made in the administration of the affairs of his office at the present time, but that he was simply familiarizing himself with the school system of this city.
